

01 Wrong Way Text

Curlin' is the game, they're playin', out to be like a foolish

And everybody's clappin' if a pair do leave the club

Glasses filled with alcohol are top acts of each party

Industry for money is the top guy's healthy job

Rocky Horror Picture Show is fairy taile, just modern

Childs, not passing fiveteen years are gonna hold it tight

War we play in TV set in order to obey it

Instructions from computer how to shoot to win the fight

Communication is a word we're knowing but when using

Everybody shook the head and tried to make the way

Overkilling, drugs and pills are view points of this new world

Shorter getting' shorter is the time we had to stay

05 Surrenda Text

The first time, I saw her walkin'

Surprise all over my face

She smiled a way, I never forget

Can't find a word to tell

But after short time, what happened?

I met her, but she was afraid

Darkness in words, darkness, that hurts

Can't understand that hate

And then, I met her father

He drank a lot of beers

We talked a night, we talked till day-light

But then he disappeared

I thought about his opinion

I thought about what he said

Coldness, refusal is present in us

I knew a girl, whose name's Surrenda

She's not older than one of you here,

She's crying at her father's shoulder

Cause she couldn't live no longer here

06 No More Grainfields Text

**No more grainfields, nomore past
These warm colors, won't run fast
Peacefull mothers, children first
No more science, rules of life
Bad behaviours, will turn grey
Wrong religion, whose the best
Endless summer, fall's a sin too short spring
Too cool winter, too short spring
Like a fiction, men will sing
Dark distortion, feedbacking
Satisfaction, it will stay
Shot right into, it will fail
My addiction, no more rest**

No grainfields, ahead...
